EDUCATION

University of XYZ, City, State

Oct 2020 - May 2024

Master of Science in Computer Science, Predicted 1:1

- Completed an advanced program in Computer Science, covering cutting-edge topics such as artificial intelligence, data science, algorithms, and software engineering.
- Conducted research on deep learning models and their applications in natural language processing, culminating in a thesis on "Enhancing Sentiment Analysis using Transformer Networks."
- Engaged in various group projects, collaborating with peers to develop real-world applications leveraging machine learning and computer vision techniques.

City College, City, State

June 2018 - March 2020

Diploma in Information Technology, 99%

- Gained fundamental knowledge of computer systems, database management, and programming languages.
- Completed a major project on designing and implementing a data-driven web application using PHP and MySQL, allowing users to manage personal tasks efficiently.
- Awarded the "Best Project" distinction for the innovative approach and user-friendly design of the web application.

PROJECT & EXPERIENCE

Online Bookstore Application

Jan 2023

- Developed an interactive online bookstore system with functionalities like book searching, user authentication, and shopping cart management.
- Utilized Java, MySQL, and JavaFX to create a user-friendly interface.

Software Development Intern, ABC Software Company

Summer 2022

- Assisted in developing and testing new features for a web application using React.js and Node.js.
- Collaborated with the development team to identify and fix bugs in the existing codebase.

Personal Portfolio Website

Jan 2021

- Designed and developed a responsive personal portfolio website to showcase projects, skills, and contact information.
- Implemented JavaScript and CSS animations for enhanced user experience.
- Utilized version control with Git, enabling seamless collaboration and tracking changes.

SKILLS & INTERESTS

Programming Languages Java, Python, JavaScript, C++

Web Development HTML, CSS, React.js

Database MySQL, SQLite

Tools Git, Visual Studio Code, Eclipse

Languages English (professional), Spanish (professional)

Interests Full-stack Web Development, Artificial Intelligence and Machine Learning, Open-source Contributions, Problem-solving and Algorithms
